

- organizes workshops for English teachers to carry out a classroom-based Exploratory Action Research for their continuous professional development
- works with interested schools to run workshops for parents on 'good parenting', support schools to strengthen relationship with parents and establish reading culture among children at homes and schools.

Ongoing project

IERRC classroom-based training programme

IERRC Classroom-Based Training Programme (ICBTP) has been implemented in Himalayan English Boarding School, Lukla.

Based on the agreement made between the two institutions in August, 2019, IERRC has been running series of workshops and supporting primary teachers in developing and implementing a progressive curriculum in the school. IERRC team already completed four onsite contact sessions.

All the contact sessions took place in Himalayan English Boarding School, Lukla. Apart from the classroom based contact sessions, virtual meetings via Viber, Messenger or phone calls were held each fortnight. Curriculum topics were discussed during the contact sessions and lesson plans were developed or gathered from the centre office in Kathmandu.

Professional Development Trainings for Primary Educators

School-based training

About us

Established in the year 2019, Integrative Education Research and Recreation Centre (iERRC), an educational training centre has been working intensively for

- educational and overall development of youth and children
- empowerment of youth through Culinary education
- continuous professional development of English teachers
- overall innovation in primary education

Professional development trainings for English educators

MMASTIEE is our *mantra* that stands for:

M - Mindful engagement
M - Music and meditation
A - Arts
S - Social and spiritual awareness
T - Technology integration in education
I - Inquiry based learning
E - Ecological awareness
E - Entertainment & Food

It guides us throughout the process of mentoring primary educators to teach English, integrating the language skills into other subject contents.

Professional development training for primary educators

To enhance professional development for primary educators
iERRC

- works with schools to develop and implement English and Nepali literacy improvement activities align with the integrated curriculum (Grade 1-3) 'Hamro Serofero'.
- organizes workshops for the teachers to develop long term project based lessons along with relevant materials and mentor them regularly within the contract period to implement those activities
